

Application to the

International Time Programme

as provided by
The International Scientific Committee (CCI) of the Observatorios de Canarias
for the 2021B observing season: GREGOR

To be sent by email, together with the appropriate detailed proposal forms for the wanted telescope(s) as pdf files, to `east-tac@astro.su.se` no later than 24 May 2021 23:59 UT.

Project name

Observations of minute details in major structures

Applicant information

Role	Name	Email	Affiliation (Country)
PI	A. Person	<code>a.person@solar.ac.uk</code>	Solar Institute (UK)
CoI	A. Nother Person	<code>a.n.person@solar.fr</code>	Institute solaire (FR)
CoI	Also A. Person	<code>a.a.person@solar.no</code>	Solinstitutet (NO)

Observations programme information

We apply for observations with the following instruments.

Days	Telescope	Instruments	Expected observing period
0	GREGOR		Aug-Nov

If two or more telescopes are requested then this will be taken as an application for coordinated observations to be accepted or rejected in its entirety. For the possibility of using only one telescope, please submit a separate proposal for that telescope.

Appendices: 1. GREGOR proposal form.

Legal

Applications must follow these rules:

- There must be applicants from at least two of the following countries: Spain, UK, Germany, France, Italy, Finland and Belgium.

By submitting this application, the PI certifies that they follow the rules above and that they are aware of the paragraph below.

This is an application for ITP time only. There is no other support, like travel costs, associated with this.
